1. Luminaire Cover - Die-cast, aluminum cover, with smooth crisp form to reflect and complement the column design. Thick-walled, aluminum cover is painted white on the interior for maximum luminaire efficiency. Removes by loosening three vandal-resistant, stainless steel screws for easy access to chamber.

2. Gasketing - (not shown) Continuous gaskets provide weather-proofing, dust, and insect control at all fixture connections.

3. Shielding - White, translucent, UV stabilized acrylic, minimum wall thickness 0.118" (3mm) inside of die cast aluminum "Corral" rings.

4. LED Light Engine - (not shown) High efficiency LED light engine equipped with brand-name LEDs, available in 2700K, 3000K, 3500K, or 4000K CCT tolerance within a 3-step MacAdams ellipse.

5. Drivers - (not shown) Electronic universal 120-277V, PFC > 0.95

6. Column Fitter - Die-cast aluminum fitter, with built-in gasketing ridges, for smooth transition to column.

7. Surge Protector - (not shown) Designed to protect luminaire from electrical surge (10kA).

8. Hi-Lo Switching - (not shown) For details, please see page 4.

Exterior Luminaire Finish -

Selux utilizes a high quality Polyester Powder Coating. All Selux luminaires and poles are finished in our Tiger Drylac certified facility and undergo a five stage intensive pretreatment process where product is thoroughly cleaned, phosphated and sealed.
