 Series Height Lamping Finish Voltage Options

Series	Height	Lamping			Finish	Voltage	Options
BRMF MTR Bollard Round Flat Top	2 2' (.6m)	Metal Halide			WH White	120	HS House Side Shield (180°) Consult factory for details
WRMF MTR Wall Mount Round Flat Top	3 3' (.9m)	H050 ¹ 50w	S050 ¹ 50w	F32 ² 32w	BK Black	208	
	4 4' (1.2m)	H070 70w	S070 70w	F42 ² 42w	BZ Bronze	240	
	or specify custom height Wall Mounting see p. 2				SV Silver	277	
					SP Specify Premium Color	347	

¹ Only available in 120v and 277v ² Not available in 208v or 240v

1. Fixture Cover - Die-cast aluminum cover, with flat round form to reflect and complement the column design. Thick walled, aluminum cover is painted white on the interior for maximum luminaire efficiency. Removes by loosening three, vandal-resistant, stainless steel screws for easy access to lamp chamber.

2. Gasketing - Continuous gaskets provide weather-proofing, dust, and insect control at shielding base, fixture cover and between MTR rings.

3. Shielding - Injection-molded acrylic multi-prisms for total reflection (MTR). MTR rings have a wall thickness of 0.591" (15mm) and are patterned after

the light bending characteristics of a prism. Secured to die-cast aluminum fitter.

4. Lamp - Enclosed by borosilicate glass cylinder. One coated, base down, medium base ED-17 metal halide up to 70w; high pressure sodium up to 70w; or triple tube, four pin GX24q-3 for 32w and GX24q-4 for 42w compact fluorescent. Lamp provided by others.

5. Column - Extruded, thick-walled aluminum, minimum wall thickness 0.118" (3mm). Available in a smooth round design, with three vertical grooves. Mounted to cast aluminum base with three, vandal-resistant, stainless steel counter-sunk screws.

6. Borosilicate Glass Cylinder - (Not shown) Provides thermal stability and filters U.V. rays from lamp. Secured by three retaining clips.

7. Ballast - Open core and coil ballast pre-wired to pulse rated, porcelain, medium base socket for HID lamps. Cold weather electronic ballast for fluorescent lamps. Consult factory for more detailed ballast information.

8. Column Fitter - Die-cast, aluminum fitter holds ballast assembly and lamp socket. Fastened

to column with three, vandal-resistant stainless steel, counter-sunk screws. Column fitter removal allows access to ballast assembly.

Exterior Luminaire Finish - Selux utilizes a high quality Polyester Powder Coating. All Selux luminaires and poles are finished in our Tiger Drylac certified facility and undergo a five stage intensive pretreatment process where product is thoroughly cleaned, phosphated and sealed. Selux powder coated products provide excellent salt and humidity resistance as well as ultra violet resistance for color retention. All products are tested in accordance with test specifications for coatings from ASTM and PCI.

Standard exterior colors are White (WH), Black (BK), Bronze (BZ), and Silver (SV). Selux premium colors (SP) are available, please specify from your Selux color selection guide. Hot Dip Galvanized finish (GV) on all steel parts also available.

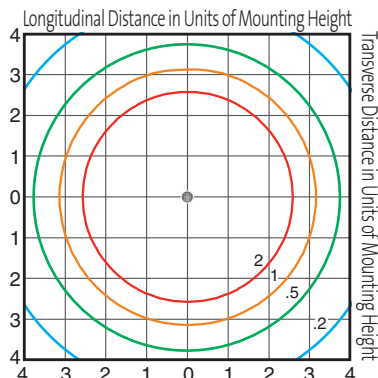

Photometry

MTR Round Bollard / 70W Metal Halide

Catalog # BRMF-H070
Report # ITL40308

- Innovative “multi-prisms for total reflection” incorporates light-bending characteristics of a prism.
- Directs light precisely with minimum intensity at critical viewing angles.
- Blends efficiency with visual comfort.
- Maximum candela of 385 at 60° from vertical.

Lamp Prorate Table								
High Pressure Sodium			Metal Halide			Fluorescent		
Wattage	Factor	Initial Lumens	Wattage	Factor	Initial Lumens	Wattage	Factor	Initial Lumens
50	0.47	3700	50	0.44	3400	32	0.48	2400
70	0.74	5800	70	0.64	5000	42	0.64	3200

Conversion Chart	
Values based on 3' (.9m) mounting height	
Mounting Height	Multiply
2.0' (.6m)	2.25
2.5' (.8m)	1.44
3.0' (.9m)	1.00
3.5' (1.1m)	0.73
4.0' (1.2m)	0.56

Wall Mount Information

Die cast aluminum wall mount arm with die-cast aluminum canopy. Attaches to cast base of fixture. Secured to wall with 1/4" (6mm) diameter threaded fasteners (by others).

WRMF

Wall Arm Mounting Detail

(Conduit and mounting hardware by others.)

Anchorage Information

NOTES:

1. BOLLARD ORIENTATION IS CRITICAL. ROD & HANDHOLE LOCATIONS ARE CRITICAL.
2. LOCATE SINGLE BOLT AT HANDHOLE LOCATION.
3. ADEQUATE DRAINAGE MUST BE PROVIDED IN CONCRETE FOUNDATION.
4. CONDUIT SHOULD BE STUBBED UP ABOVE THE CONCRETE FOOTING

BOLT CIRCLE DETAIL (Not to Scale)

USE CAUTION WHEN SETTING ANCHOR BOLTS. BOLTS MUST BE VERTICALLY STRAIGHT AND CENTERED ON DIMENSIONS SHOWN.
