¹ Not available 39W MH and EB option.

1. Luminaire Cover - Cast marine-grade aluminum cover, with smooth crisp form to reflect and complement the column design. Removes tool-less for access to lamp chamber.

2. Lamp - Choose between 39 to 150 Watt T6 G12 base ceramic metal halide lamps. Horizontal lamp for R2 reflector and R5 reflector. Lamps provided by others.

3. Reflector - Precision hydro formed, 99.8% pure aluminum reflector system with Type II or Type V IDA-certified "dark sky friendly" full-cutoff distributions.

4. Gasketing - Continuous silicone gaskets provide weather-proofing, dust, and insect control at fixture cover and between shielding.

5. Shielding - Clear, impact resistant, UV stabilized polycarbonate, minimum wall thickness 0.118" (3mm).

6. Column Base - Cast marine-grade aluminum fitter, with built-in gasketing ridges, for smooth transition to column.

7. Column - Extruded smooth marine-grade aluminum, minimum wall thickness 0.118" (3mm).

8. Access Door - 4" x 7" (76 x 178mm) handhole provided for in-field column assembly, with flush cover and stainless steel tamper-resistant hardware.

9. Ballast - A high efficiency, pulse start, core and coil ballast factory wired to socket. Optional Electronic ESB, high power factor, class "P," type "A" sound rating ballast available for MH lamps. Consult factory for more detailed ballast information.

10. Top Fitter - Die-cast marine-grade aluminum fitter.

Exterior Luminaire Finish - Selux utilizes a high quality Polyester Powder Coating. All Selux luminaires and poles are finished in our Tiger Drylac certified facility and undergo a five stage intensive pretreatment process where product is thoroughly cleaned, phosphated and sealed. Selux powder coated products provide excellent salt and humidity resistance as well as ultra violet resistance for color retention. All products are tested in accordance with test specifications for coatings from ASTM and PCI.

Standard exterior colors are White (WH), Black (BK), Bronze (BZ), and Silver (SV). Selux premium colors (SP) are available, please specify from your Selux color selection guide.

Photometry

Round Straight Pole / 150W T6

Catalog # EXR-R2-H150T6
Report # SX-7970

- Round 12' Straight Pole
- Ideal for applications demanding max. spacing.
- Maximum candela of 4294 at 70° from vertical.
- IES classification - Type II Full Cutoff.

Round Straight Pole / 150W T6

Catalog # EXR-R5-H150T6
Report # SX-7971

- Round 12' Straight Pole
- Ideal for applications demanding max. spacing.
- Maximum candela of 3056 at 67.5° from vertical.
- IES classification - Type V Full Cutoff.

Optional Accessories

GFCI Receptacle (REC) - 120V 15A GFCI duplex receptacle with weather-proof, self-closing cover; located 36" (915mm) from base of pole, inline with handhole. Receptacle is intended only for portable tools or other portable equipment to be connected to outlet only when attended by operating personnel. For use with 120V applications only. For other fixture voltages, please consult factory for wire segregation requirements.

GFCI Receptacle (REC2) - 120V 15A GFCI duplex receptacle with weather-proof, self-closing, padlockable cover; located 36" (915mm) from base of pole, inline with handhole. Receptacle is intended only for portable tools or other portable equipment to be connected to outlet only when attended by operating personnel. For use with 120V applications only. For other fixture voltages, please consult factory for wire segregation requirements.
