M100 Shapes LED Direct

Order Code: L10 - - - - -

L10	Series	L10 Multi-Mount Form							
	Light Engine	1B45^{1,2} 789 lm/11.1W per foot	1B40^{1,2} 713 lm/9.8W per foot	1B35¹ 628 lm/8.6W per foot	1B30¹ 536 lm/7.2W per foot	1B25¹ 481 lm/6.4W per foot	1B20¹ 363 lm/4.7W per foot	¹ Values calculated from a 4' fixture at 4000K using LW shielding and a DIM driver. For additional information, please see page 2. ² Not available with Lutron	
	CCT	27 2700K 90+ CRI	30 3000K 90+ CRI	35 3500K 90+ CRI	40 4000K 90+ CRI				
	Shielding	LW LED Optimized White Lens	MI Clear Lens with Microprism						
	Mounting	C³ Cable	S³ Swivel Stem	RS³ Rigid Stem	F³ Surface Mount			³ 1' triangle, square and hexagon, along with 2' triangle and square are supplied as one housing. All other sizes and shapes are supplied in multiple housings joined together in the field.	
	Shape and Nominal Length	TX Triangle	QXY Rectangle/ Square	HX Hexagon	*X = 1', 2', 3', 4' *Y = 1', 2', 3', 4'			* Select shape and add nominal side length. For rectangles, indicate length and width. Example: Use T4 for a Triangle with sides 4' long. * For other lengths, shapes or configurations, please consult factory.	
	Finish	WH* White	BL* Semi-Matte Black	SV* Silver	SP* Specify Premium Color		* Custom colors are available, please consult factory		
	Voltage	120 120 Volt	277 277 Volt	UNV 120 through 277 50/60hz capable	347 347 Volt (consult factory)				
	Driver	DIM⁴ 0-10V (Linear)	DM^{4,5} eldoLED SOLoDrive 0-10V (Linear)	DML^{4,5} eldoLED SOLoDrive 0-10V (Logarithmic)	DMD^{4,5} eldoLED DALI (Logarithmic)	DC2^{4,5,6} Lutron 2-Wire	DE1^{4,5} Lutron EcoSystem	DC5 Lutron 5-Series (consult factory)	⁴ See page 6 for details ⁵ Not available in 1' side length ⁶ 120V only
	Fixture Options	DL Damp Location Rated	FS In-line Fuse						
	Emergency Options	EC Emergency Circuit Wiring (consult factory)	EMR Remote Micro Inverter (consult factory)						

LW lens shown for reference

Construction:

Housing - Continuous, low copper 6063-T6 extruded aluminum profile available as Triangle, Square, Rectangle or Hexagon.

Geartray - Low copper 6063-T6 extruded aluminum profile.

Shielding - Extruded, impact resistant acrylic lens:
- LED Optimized White Lens (LW)
- Clear Lens with Microprism Inlay (MI)

Mounting(s) - 1/8" Aircraft Cable, Ø5/8" Swivel or Rigid Steel Stem, Wall Bracket, Surface mounting (see pages 3 through 6 for details).

Standard Luminaire lengths - All standard luminaires are supplied in nominal lengths to ensure full, even, illumination.

** Individual luminaires are not joinable in the field.

Exact length luminaires - Sizes and shapes other than those indicated are available to meet your project needs. Please consult factory with your requirements.

** Lens luminance may soften at the corners for exact length luminaires.

L10 Joiner(s) - 1' triangle, square and hexagon along with 2' triangle and square supplied as one housing. All other sizes, shapes and configurations are supplied in multiple housings joined together in the field using the supplied L10 joiner system. This allows ease of installation and ensures a uniform appearance (see page 8 for detail).

Weight: 3.2 lb. per foot.

Electrical/Performance:

LED Light Engine - Brand-name mid-power LEDs create a high efficiency LED light engine able to provide a lumen maintenance of 96% at 25,000 hours and 93% at 60,000 hours at 25°C per TM-21 reports. Reported L70 greater than 60,000 hours.

Delivered Lumens - Due to LED manufacturer's tolerances the listed output has a ±5% tolerance. For outputs based on different shielding or CCT please see photometry section at the end.

CCT - Available in 2700K, 3000K, 3500K and 4000K, tolerance within a 3-step MacAdam ellipse.

CRI - 90+.

All Drivers - High efficiency, constant current, soft start, Electronic Class 2 with a PFC>0.90. For more detailed information on the available drivers please see page 6.

Thermal Performance:

Ambient Operating Temperature - Luminaires suitable for maximum ambient temperature of

35°C (95°F) for all drivers.

Luminaires are suitable for minimum ambient temperatures of:

-40°C (-40°F) for DIM, DM, DML, and DMD drivers.

0°C (32°F) for DC2 and DE1 drivers.

Luminaire Finish:

Powder Coat - All Selux luminaires are finished in high quality polyester powder coating in our Tiger Drylac certified facility and are tested in accordance with test specifications for coatings from ASTM and PCI.

All products undergo a five stage intensive pretreatment process where product is thoroughly cleaned, phosphated, and sealed. Selux powder coated products provide excellent salt and humidity resistance as well as ultra violet resistance for color retention.

Standard interior colors are White (WH), Semi-Matte Black (BL), and Silver (SV). Selux premium colors (SP) are available, please specify from your Selux color selection guide.

Warranty:

5 Year Limited LED Luminaire Warranty -

Selux offers a 5 Year Limited Warranty to the original purchaser that the M100 series LED luminaire shall be free from defects in material and workmanship for up to five (5) years from date of shipment. This limited warranty covers the LED driver and LED light engine when installed according to Selux instructions and operated within the Ambient Temperature. For additional details and exclusions, see "Selux Terms and Condition of Sale."

Certifications and Compliance:

NRTL - For Dry and Damp location
(I.E. cULus)

ARRA Compliant

RoHS Compliant

Cable Mounting (C)

Housing Sections and Lens Lengths:

For standard shapes and sizes, lens lengths will always be equal to side lengths of the shape. Listed below are the nominal lengths and details for standard shapes. These standard shapes are standalone and cannot be combined with any other shapes or lengths. For non-standard sizes, shapes or configurations and patterns please consult factory.

Shape	Hexagon								Triangle						Square

*Dimension(s) rounded to the nearest 1/16" with a ± 1/16" (1mm) tolerance.
*For rectangle length and width dimensions, reference the square nominal size rows needed.

Note: lens length does not always match housing length. For standard lengths up to 4', lens will equal side length.

Surface Mount (F)

1. Ø³/₁₆" Mounting hole drilled at the factory (mounting hardware to code by others).

Drivers:

0-10V linear dimming (DIM)

Luminaires supplied with drivers offering the capability of either normal switched operation or 0-10V dimming for linear dimming curve. Fixtures ship wired for dimming. For on/off functionality, simply cap the dimming leads. Minimum dimming level preset at factory to 1%. (Due to size constraints, 1' side length luminaires are supplied with a driver from a different manufacturer than 2' and above luminaires. For details, please consult factory.)

eldoLED SOLOdrive 0-10V linear dimming (DM)

Luminaires supplied with SOLOdrive 0-10V dimming driver for linear dimming curve. Minimum dimming level preset at factory to 1%. For "dim to dark" (down to 0.1%), please consult factory.

eldoLED SOLOdrive 0-10V logarithmic dimming (DML)

Luminaires supplied with SOLOdrive 0-10V dimming driver for logarithmic dimming curve. Minimum dimming level preset at factory to 1%. For "dim to dark" (down to 0.1%), please consult factory.

LUTRON 2-wire dimming (DC2)

Luminaires supplied with Hi-Lume 2-wire dimming driver (120V only) programmed for Constant Current Reduction (CCR). For Pulse Width Modulation (PWM) dimming, please consult factory. Minimum dimming level down to 1%.

LUTRON Ecosystem dimming (DE1)

Luminaires supplied with Hi-Lume EcoSystem (4 wire, digital link) dimming driver programmed for Constant Current Reduction (CCR). For Pulse Width Modulation (PWM) dimming, please consult factory. Minimum dimming level down to 1% with SoftOn/FadeToBlack.

* For control recommendation, please contact driver manufacturer.

* For driver counts, see page 7.

Fuse (FS) - Fusing, luminaires supplied with a in-line fuse located on the hot wire for each feed. (supplied with an 8A slow burn fuse).

Damp Location (DL) - Luminaires are suitable for use in damp location(s). Examples of such locations include protected areas under canopies, marquees, roofed porches, and similar locations where the fixture(s) are protected from direct contact with rain, snow, or excessive moisture (such as ocean spray). Interior locations include areas subject to moderate degrees of moisture, such as basements and certain barns and cold storage buildings. All solder points on LED boards are conformal coated. The phosphor layer of the LEDs is free of coating to avoid hazing.

Joiner System - standard for multi-piece housings

Housing Breaks and Lens Lengths

For standard shapes and sizes, lens lengths will always be equal to side lengths of the shape. These standard shapes are standalone and cannot be combined with any other shapes or lengths. For non-standard sizes, shapes or configurations and patterns please consult factory.

2 - Vertical Plane Through Horizontal Angles (0 - 180)

MI Optics / 34W LED / 4000K CCT

Catalog #: L10-1B35-40-MI-X-04-XX-UNV
Report #: 11685024.07
Delivered Lumens: 2963
Input Watts: 34W
Efficacy: 87
CCT: 3950K
CRI: 95.7

Maximum Candela = 1959 Located At Horizontal Angle = 0, Vertical Angle = 1
1 - Vertical Plane Through Horizontal Angles (90 - 270)
2 - Vertical Plane Through Horizontal Angles (0 - 180)

Photometry

L100 LED Photometry Multiplier Table		
CCT Multiplier		
4000K	1.000	
3500K	0.972	
3000K	0.963	
2700K	0.931	
Light Engine Multiplier		
Light Engine	Lumens	Wattages
1B45	1.258	1.285
1B40	1.137	1.140
1B35	1.000	1.000
1B30	0.855	0.838
1B25	0.766	0.740
1B20	0.578	0.552
Lens Multiplier		
LW	1.000	
MI	1.050	

CCT multipliers apply to the photometry, IES files, and per foot values listed on page one (light engine).

Light engine and lens multipliers supplied for per foot values listed on page one (light engine).
