Specifications

Luminaire Cover - Die cast aluminum cover made from low copper alloy, designed to ensure optimal thermal management for extra long life time of LED light engine.

Cover Support - Machined support connected to fixture cover with architectural Allen head nut detail.

Cover Set Screw - Two stainless steel, socket head cap screws provide attachment of fixture cover and support to 1" (25mm) diameter connection rods. Loosening screws allows removal of fixture cover without tools.

Fixture Hood - Aluminum shade with white painted interior for maximum reflectivity.

Gasketing - Continuous gasket provides weatherproofing, dust and insect control at all fixture connections.

Luminaire Hood - Aluminum shade with white painted interior.

LED Array - Mid-power LEDs mounted to aluminum core PC boards and attached to aluminum heat sink for maximum LED performance and life. CCT tolerance 1/4 step binning for 3000K. CRI minimum 80K. Complete light engine can be removed easily for future upgrade. LED light engine provides a reported lumen maintenance of 93% at 50,000 hours. L70 calculated greater than 100,000 hours.

LED Optics - Symmetric or Asymmetric distributions created by conical textured reflector and patterned acrylic reveal with alternate LED PCB layouts. Type V and Type IV IES distribution types. An indirect lighting effect spreads brightness and improves visual appearance.

LED Driver - LEDs are driven by RoHS compliant high-efficiency driver. Excellent for cold temperature starting and instant on.

Pole Fitter - Self-leveling, die cast low-copper aluminum alloy, fitter base secured to pole with three, stainless steel, Allen head set screws. Fitter for 3 1/2" (90mm) O.D. poles.

Diffuser - Clear, U.V. stabilized, acrylic with minimum wall thickness of 0.125" (3mm).

Surge Protector - Designed to protect luminaire from electrical surge (20kA).

Power Cord - Pre-installed at factory. Please specify power cord length in accordance to height of the pole. Add 2 feet to power cord length if single arm mounting (1A) or double mounting (2) is specified.

Exterior Luminaire Finish - Selux utilizes a high quality Polyester Powder Coating. All Selux luminaires and poles are finished in our Tiger Drylac certified facility and undergo a five stage intensive pretreatment process where product is thoroughly cleaned, phosphated and sealed. Selux powder coated products provide excellent salt and humidity resistance as well as ultraviolet resistance for color retention. All products are tested in accordance with test specifications for coatings from ASTM and PCI.

Standard exterior colors are White (WH), Black (BK), Semi-Matte Black (BL), Bronze (BZ), and Silver (SV). Selux premium colors (SP) are available, please specify from your Selux color selection guide.

5 Year Limited LED Luminaire Warranty

- Selux offers a 5 Year Limited Warranty to the original purchaser that the Saturn 1 LED luminaire shall be free from defects in material and workmanship for up to five (5) years from date of shipment. This limited warranty covers the LED driver and LED array when installed and operated according to Selux instructions. For details, see "Selux Terms and Condition of Sale."

Listings and Ratings: Luminaire and LED tested to IESNA LM-79-08 standards. LED tested to LM-80 standards. Luminaire and LED tested at 25°C ambient temperature.
